New Panasonic Bullet Cameras Deliver Superior Performance and Advanced Feature

Panasonic, a leading company of video surveillance cameras and solutions, announced two bullet cameras based on a new design. The new, innovative fixed cameras, WV-SPW531AL and WV-SPW311AL, offer simplicity of choice, ease of management and a low total cost of ownership (TCO) as well as the benefits of exceptional video quality and advanced functionality.

The WV-SPW531AL network camera features Full HD 1080p at up to 60fps, while the WV-SPW311AL supports HD 720p at up to 60fps. Both WV-SPW531AL and WV-SPW311AL network cameras include Enhanced Super Dynamic (133dB wide dynamic range), GOP control, high sensitivity with the latest MOS sensor and Noise Reduction technologies (3D-Multi process Noise Reduction and Frequency Divided Filter), a suite of advanced image processing technologies, an optional intelligent Video Motion Detection (i-VMD).

All bullet cameras are outdoor-ready, and weather- and dust-resistant, with IP66- and NEMA 4X-rating and have Day/Night functionality with removing a built-in IR-cut filter, which delivers high sensitivity of 0.01-lux minimum illumination for black and white images.
