Panasonic Launches Two 6-series Outdoor-ready Fixed Network Cameras for High-End installations

Panasonic, a leading company of video surveillance cameras and solutions, announced two new outdoor-ready fixed network cameras, WV-SPW631L and WV-SPW631LT. Ideal for outdoor security applications requiring Full HD video at a low total cost of ownership (TCO), both cameras offers exceptional Full HD 1080p video quality at up to 60fps under challenging light conditions, IP66- and NEMA 4X-rated weather resistance and built-in long range IR illumination.

Feature highlights of both cameras include Enhanced Super Dynamic (an industrial leading 133dB wide dynamic range), high sensitivity with the latest MOS sensor and Multi process Noise Reduction (MNR), high-speed ABE, High Light Compensation (HLC), multiple H.264 (High Profile) streams and high compression rate, optional intelligent Video Motion Detection (i-VMD) software, dual password protected SD memory card slots for local recording and two-way audio capability for remote control situations. The WV-SPW631L and WV-SPW631LT fixed cameras meet the latest ONVIF Profile G for storage and retrieval as well as ONVIF Profile S for IP-based video systems.

The WV-SPW631L is equipped with a 2.8-10mm vari-focal lens, while the WV-SPW631LT features a 9-22mm long focus type lens which captures a distant object clearly.
